***Upside Down World*** is an online magazine covering activism and politics in Latin America. Founded in 2003, it is made up of work from writers, activists, artists and regular citizens from around the globe who are interested in flipping the world upside down...or right side up.

*Upside Down World* provides concerned global citizens with independent reporting on Latin American social movements and governments that have refused to prostrate themselves to the interests of corporate globalization, and instead have focused their work on addressing the needs of the people. While corporate media often distorts or overlooks this progressive, regional trend, we seek to provide an alternative resource for information about the achievements and challenges of these people-powered movements.
